Summary

Applied AI Engineer with 3+ years shipping production systems across .NET, Angular, and Azure. PGP in Forward Deployed Engineering & Applied AI Solutions (FDE Academy, IIT Roorkee Certification). Built multi-agent AI systems, RAG pipelines, and demand forecasting models. Skilled in technical-to-business translation, taking ambiguous requirements from discovery to deployment under production constraints. 4 Azure certifications. Open to FDE and applied AI roles.

Technical Skills

AI & Agents: LangChain, Semantic Kernel, Azure OpenAI, Azure AI Foundry, Multi-Agent Systems, RAG
ML & Data: scikit-learn, Feature Engineering, Model Evaluation, Vector Search (Qdrant), Hybrid Retrieval
Languages & Full-Stack: Python, C#, TypeScript, Java · Angular, React/Next.js, .NET/ASP.NET Core, FastAPI
Cloud & Infra: Azure (4 certs), Docker, Supabase, PostgreSQL, Azure DevOps, GitHub Actions, CI/CD
Architecture: CQRS, Microservices, Multi-tenant, Event-driven, REST APIs, Production Hardening

Projects

SliceMatic — Agentic AI Ordering Platform

[GitHub](#)

- Built full-stack AI ordering platform using Next.js + Supabase with LLM-driven menu **recommendations** and scikit-learn demand **forecasting**
- Implemented real-time collaborative ordering via Supabase Realtime with Row Level Security enforcement across all user roles
- Deployed with Docker, branch previews, and environment-based configuration — production hardening over demo shortcuts

Experience

Software Engineer · AnAr Solutions Inc. (Remote, Pune)

May 2023 – Present

*Client: **Optalitix UK** — Insurance Domain*

Apr 2024 – Present

- Optimized Angular frontend using eTag-based caching, reducing page load time by **30%**
- Owned frontend architecture for complex insurance workflows, managing cross-functional delivery under ambiguous, shifting scope
- Practiced **TDD BDD**, reducing regression defects by **25%**
- Built Azure DevOps pipelines to automate build/version tracking, improving deployment transparency

*Client: **ActiveX Australia** — Healthcare Domain*

May 2023 – Apr 2024

- Led end-to-end development of cross-platform healthcare app using Angular + Ionic, supporting thousands of users
- Integrated Bluetooth-enabled IoT devices via vendor SDK for real-time patient data synchronization
- Applied Azure expertise (AI-102, AZ-104) to design secure identity flows, reducing incident resolution time by **40%**

Education

PGP in Forward Deployed Engineering & Applied AI Solutions

FDE Academy

Certification in Forward Deployed AI Engineering

IIT Roorkee

PGDCA — Advanced Computing (Grade: A)

CDAC Bengaluru · 2022–2023

B.Tech Civil Engineering (89.60%)

Galgotias University · 2014–2018

Certifications

AI-102: Azure AI Engineer Associate · DP-100: Azure Data Scientist Associate · AZ-305: Azure Solutions Architect Expert · AZ-104: Azure Administrator Associate
